About This CME Teaching Activity

The University of California, San Diego in association with Educational Symposia present 2018 Clinical Breast Imaging and Interventions Update. This CME activity provides a comprehensive review of diagnostic breast imaging and intervention. Focus is placed on a systematic approach to effective breast imaging and interpretation strategies. Technological advances in breast imaging techniques, including tomosynthesis, contrast enhanced mammography are presented. Updates in image guided breast biopsy and current trends in optimizing your breast

imaging program as well as multimodality case reviews enforce the didactic lectures included in this series.

Target Audience

This CME activity is primarily intended and designed to educate diagnostic imaging physicians who perform and interpret breast imaging examinations. The CME activity should also benefit referring physicians who order breast imaging studies.

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 21.25 *AMA PRA Category 1 Credit(s)*TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

SA-CME: Credits awarded for this enduring activity are designated “SA-CME” by the American Board of Radiology (ABR) and qualify toward fulfilling requirements for Maintenance of Certification (MOC) Part II: Lifelong Learning and Self-assessment.

All activity participants are required to pass a written or online test with a minimum score of 70% in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

AMA PRA Category 1 Credit(s)TM for this activity may be claimed until March 14, 2021.

This CME activity was planned and produced by Educational Symposia,
a leader in continuing medical education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- Review changes to the ACR BI-RADS® lexicon.
- Evaluate the controversy involving breast density.
- Describe the role of breast core biopsy and imaging histologic correlation in evaluating suspicious breast imaging findings.
- Discuss current issues in the management of breast cancer.
- Recognize the current breast cancer economics and medical legal implications of breast imaging.
- Explain new technologies in breast imaging including full field digital mammography, digital breast tomosynthesis, ultrasound and MRI.
- Assess the current and future applications of breast imaging.
- Recognize subtle signs of breast carcinoma utilizing multiple imaging modalities.
- Correlate breast imaging results with pathological and surgical outcomes.

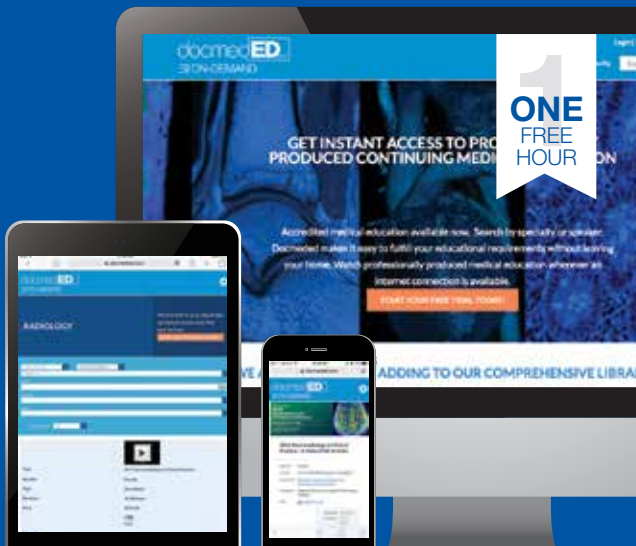

No special educational preparation is required for this CME activity.
