About The Meeting

This seminar is designed to provide a practical yet comprehensive review of soft tissue tumor pathology. A pattern-based approach to diagnosis, including an emphasis on differential diagnosis, as well as the use of ancillary diagnostic methods (especially immunohistochemistry) will be discussed.

Target Audience

This CME activity is primarily intended and designed to educate pathologists.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 12.0 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Educational Objectives

Attendees should, at the completion of this course, be able to:

- Apply a pattern-based approach to the differential diagnosis of soft tissue tumors.
- Describe the evolution of diagnostic immunohistochemistry for soft tissue tumors.
- Utilize immunohistochemistry for accurate diagnosis of soft tissue tumors.
- Order appropriate molecular tests for accurate diagnosis of soft tissue sarcomas.
- Recognize histologic and genetic subtypes of gastrointestinal stromal tumors.
- Discuss the differential diagnosis of mesenchymal tumors of the gastrointestinal tract.
- Recognize recently described mesenchymal tumors of the head and neck.
- Discuss the differential diagnosis of cutaneous spindle cell tumors.

No special educational preparation is required for this CME activity.
