### About The Meeting

This course is designed to provide a practical, clinically oriented review of body and oncologic MRI. The program will review the fundamentals of body MRI focusing on the imaging appearance of common tumors of the abdomen and pelvis. In addition, tips on using advanced imaging techniques to further enhance tumor detection will be discussed. Information acquired during the symposium is designed to improve diagnostic capabilities and assessment of tumor response.

### Target Audience

This CME activity is designed to educate radiologists, as well as others who have an interest in body MRI and oncologic imaging.

### Scientific Sponsor

Educational Symposia

### Accreditation

**Physicians:** Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 12.0 AMA PRA Category 1 Credit(s)<sup>TM</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

### Educational Objectives

Attendees should, at the completion of this course, be able to:

- Optimize body MRI imaging techniques and sequences.
- Recognize the image characteristics of common tumors in the body and pelvis.
- Differentiate benign and malignant lesions of the liver, kidney, bowel and pancreas.
- Discuss challenges associated with imaging the oncologic abdomen.
- Apply advanced imaging techniques to evaluate abdominal tumors and tumor metastasis.

*No special educational preparation is required for this CME activity.*
