A CME Teaching Activity

2018 Clinical Nuclear Medicine

Designated for SA-CME
This enduring material activity counts towards the SA-CME requirement for the ABR, similar to a SAM activity

Release Date: October 1, 2018 | 10.25 AMA PRA Category 1 Credit(s)™

About This CME Teaching Activity
This CME activity provides a practical yet in-depth review of nuclear medicine imaging studies with concentration on the latest trends, protocols and advances in clinical diagnosis and patient management. Faculty share techniques, tips and pitfalls through didactic lectures and case based presentations.

Target Audience
This course should benefit nuclear medicine physicians, and radiologists. It should also benefit physicians who supervise and interpret nuclear medicine procedures. The course should also prove valuable for physicians who order these studies.

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 10.25 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

SA-CME: Credits awarded for this enduring activity are designated “SA-CME” by the American Board of Radiology (ABR) and qualify toward fulfilling requirements for Maintenance of Certification (MOC) Part II: Lifelong Learning and Self-assessment.

All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

Educational Objectives
At the completion of this CME teaching activity, you should be able to:

• Apply state-of-the-art protocols to assess a hepatobiliary and gastrointestinal disorders.
• Discuss current and future directions of nuclear medicine.
• Describe the role of nuclear medicine when used to evaluate thyroid disorders.
• Explain the expanding role of nuclear medicine studies in the detection and management of pulmonary, bone and neurodegenerative disorders.

No special educational preparation is required for this CME activity.
