ABOUT THE MEETING

This symposium provides a practical, comprehensive review of the important aspects of clinical body, heart and breast MRI. Physicians practicing body and heart MRI should gain knowledge on the expanding clinical applications of MRI in addition to safe and efficient scanning protocols.

TARGET AUDIENCE

This CME activity is designed to educate diagnostic imaging physicians who supervise and interpret MRI/MRA studies of the body and heart. This CME activity should also be useful for referring physicians who order these studies so that they might gain a greater appreciation of the strengths and limitations of clinically relevant MRI studies. MRI technologists should also find this activity beneficial.

ACCREDITATION
