

Surgical Pathology Update: Diagnostic Pearls for the Practicing Pathologist - Volume V

Release Date: April 1, 2021 | 15.25 AMA PRA Category 1 Credit(s)TM

About This CME Teaching Activity

This teaching activity has been designed to provide a practical and comprehensive overview of a number of topics in surgical pathology, including head and neck, gastrointestinal, hepatobiliary, gynecologic, genitourinary, and soft tissue pathology. The activity includes an overview of diagnostic pearls which allow the pathologist to render an accurate diagnosis, as well as how to best avoid some of the most common diagnostic pitfalls. Discussions include pertinent diagnostic immunohistochemical and molecular diagnostic techniques which allow the pathologist to refine their diagnosis and provide additional prognostic and therapeutic information.

Target Audience

This CME activity is primarily designed to educate practicing pathologists as well as pathologists in training.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 15.25 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

AMA PRA Category 1 Credit(s)TM
for this activity may be claimed until March 31, 2024.

This program is planned and organized by Educational Symposia, a leader in accredited continuing education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- Recognize the major diagnostic pitfalls in the diagnosis of Barrett's esophagus and Barrett's-related dysplasia
- Discuss the more recently recognized variants of ulcerative colitis as well as some of the issues related to diagnosing IBD-related dysplasia
- Identify some of the major diagnostic issues in the most common colorectal polyps, including serrated polyps
- Describe the classification of endometrial carcinomas according to the TCGA findings
- Review the work-up of endocervical neoplasms, both HPV and non-HPV related
- Accurately classify serous neoplasms and the implications of classification on clinical decision making
- Recognize key diagnostic features that define common follicular patterned thyroid neoplasms
- Discuss diagnostic strategies and treatment implications for HPV-associated tumors of the head and neck
- Recognize and differentiate the most common salivary gland tumors
- Resolve differential diagnoses for renal neoplasms based on predominant histologic pattern and communicate the clinical significance
- Implement emerging aspects of prostate pathology, including large gland and intraductal lesions into diagnostic practice
- Utilize histology and immunohistochemistry to resolve the most common diagnostic issues in testicular tumor pathology
- Categorize common patterns of liver injury as hepatocellular or biliary in origin
- Discuss the histologic features of fatty liver disease
- Describe the clinical parameters that are taken into account when listing a patient for liver transplantation
- Explain the most commonly used and diagnostically useful immunohistochemical markers in the diagnosis of soft tissue tumors

No special educational preparation is required for this CME activity.

Faculty

John R. Goldblum, M.D.

*Chairman, Department of Pathology,
Cleveland Clinic
Professor of Pathology, Cleveland Clinic Lerner
College of Medicine
Cleveland, OH*

Christopher Griffith, M.D., Ph.D.

*Subspecialty Director, Head and Neck Pathology
Staff Pathologist
Cleveland Clinic
Cleveland, OH*

Jason L. Hornick, M.D., Ph.D.

*Director of Surgical Pathology and
Immunohistochemistry
Brigham and Women's Hospital
Professor of Pathology
Harvard Medical School
Boston, MA*

Meredith Pittman, M.D.

*Assistant Professor of Pathology and
Laboratory Medicine
Weill Cornell Medicine
New York, NY*

Lauren Ende Schwartz, M.D.

*Assistant Professor of Clinical Pathology and
Laboratory Medicine
University of Pennsylvania Perelman School
of Medicine
Associate Director of Quality
Philadelphia, PA*

Sean R. Williamson, M.D.

*Staff Pathologist
Cleveland Clinic
Cleveland, OH*

Program

Session 1

Controversies in the Diagnosis of Barrett's Esophagus
John R. Goldblum, M.D.

Type I/II to TCGA: An Exploration of Endometrial Carcinoma
Lauren Ende Schwartz, M.D.

Session 2

Spindle Cell Tumors of Deep Soft Tissue:
Differential Diagnosis and Best Markers
Jason L. Hornick, M.D., Ph.D.

Avoiding Common Pitfalls in the Diagnosis of Follicular Patterned
Thyroid Neoplasms
Christopher Griffith, M.D., Ph.D.

Subclassification of Pleomorphic Sarcomas:
How and Why Should We Care?
Jason L. Hornick, M.D., Ph.D.

Session 3

What To Do when the Liver is Blue: Inflammatory Disorders of the Liver
Meredith Pittman, M.D.

Diagnosis, Grading and Ancillary Testing in Human Papillomavirus
Associated Carcinomas of the Head and Neck
Christopher Griffith, M.D., Ph.D.

Session 4

Fatty Liver: Steatosis, Steatohepatitis, and Fat-Containing Lesions
Meredith Pittman, M.D.

A Pattern-Based Approach to Renal Tumor Classification
Sean R. Williamson, M.D.

Endocervical Adenocarcinoma: A Tricky Entity with Many Faces
Lauren Ende Schwartz, M.D.

Session 5

Common Differential Diagnoses in Salivary Gland Tumors
Christopher Griffith, M.D., Ph.D.

What's New in Prostate Pathology?
Sean R. Williamson, M.D.

Session 6

IBD and IBD-related Dysplasia
John R. Goldblum, M.D.

Ovarian Serous Neoplasms: Morphologic Classification and Beyond
Lauren Ende Schwartz, M.D.

Nomenclature of Colorectal Polyps: Confusion and Controversy
John R. Goldblum, M.D.

Session 7

An Approach to Epithelioid Soft Tissue Tumors: It's Getting Easier!
Jason L. Hornick, M.D., Ph.D.

What Doctors Should Understand About Liver Transplantation
Meredith Pittman, M.D.

Session 8

Testicular Tumors: Updates and Most Common Diagnostic Challenges
Sean R. Williamson, M.D.
