

Pathology Review:

Gynecologic, Breast and Soft Tissue for the General Pathologist

Release Date: May 15, 2021 | 17.25 AMA PRA Category 1 Credit(s)TM

About This CME Teaching Activity

This continuing education activity is designed to provide a practical review of gynecologic, breast and soft tissue pathology. Faculty share basic to advanced techniques, pitfalls and pearls to pathologic diagnosis. Interactive case reviews are used to emphasize the material presented rounding out the program.

Target Audience

This CME activity is primarily intended and designed to educate pathologists.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 17.25 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

**AMA PRA Category 1 Credit(s)TM
for this activity may be claimed until May 14, 2024.**

This program is planned and organized by Educational Symposia, a leader in accredited continuing education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- Differentiate serous, endometrial and sex cord tumors of the gynecologic track.
- Discuss the challenges associated with cervical lesions of the uterus.
- Achieve a better understanding of practical placental pathology.
- Identify inflammatory and reactive lesions of the breast.
- Achieve a greater understanding of problematic issues in breast core needle biopsies.
- Analyze post-neoadjuvant breast specimens.
- Identify spindle cell and vascular tumors of the breast.
- Discuss the recent updates to the ER/PR and HER2 testing guidelines.
- Apply molecular testing in the management of breast cancer.
- Achieve a better understanding of mesenchymal tumors of the uterus.
- Review problematic in situ lesions of the breast.
- Achieve a better understanding of the challenges associated with melanocytic lesions in the pediatric population.
- Discuss the continuing dilemma of ductal carcinoma in situ.
- Review pseudolymphomas.

No special educational preparation is required for this CME activity.

Faculty

Alejandro Ariel Gru, M.D.

Associate Professor
Divisions of Dermatopathology and Hematopathology
Dermatopathology Division and Fellowship Program
Director
Department of Pathology
E. Couric Clinical Cancer Center
University of Virginia
Charlottesville, VA

Mara H. Rendi, M.D., Ph.D.

Associate Professor
University of Washington
Seattle WA
Pathologist
Hospital Pathology Associates
Minneapolis, MN

Stuart J. Schnitt, M.D.

Chief of Breast Oncologic Pathology, Dana-Farber/
Brigham and Women's Cancer Center
Associate Director, Dana-Farber Cancer
Institute/Brigham and Women's Hospital
Breast Oncology Program
Professor of Pathology, Harvard Medical School
Boston, MA

Program

Session 1

Serous Neoplasia of the Ovary
Mara H. Rendi, M.D., Ph.D.

Endometrial Neoplasia, Subtypes, Mimics and Molecular Testing
Mara H. Rendi, M.D., Ph.D.

Session 2

Sex Cord Stromal Tumors of the Gynecologic Track
Mara H. Rendi, M.D., Ph.D.

Session 3

Problematic Issues in Breast Core Needle Biopsies
Stuart J. Schnitt, M.D.

Inflammatory and Reactive Lesions of the Breast
Stuart J. Schnitt, M.D.

Session 4

Evaluation of the Post-Neoadjuvant Chemotherapy Breast Specimen
Stuart J. Schnitt, M.D.

The Spectrum of Triple Negative Breast Cancer
Stuart J. Schnitt, M.D.

Pseudolymphomas
Alejandro Ariel Gru, M.D.

Session 5

Update in Cutaneous Lymphomas in the WHO Classification
Alejandro Ariel Gru, M.D.

Superficial Mesenchymal Tumors in the Pediatric Setting
Alejandro Ariel Gru, M.D.

Session 6

Cutaneous Histiocytic Neoplasms
Alejandro Ariel Gru, M.D.

The Challenging Melanocytic Lesions in the Pediatric Population
Alejandro Ariel Gru, M.D.

Session 7

Challenging Cervical Lesions of the Uterus
Mara H. Rendi, M.D., Ph.D.

Mesenchymal Tumors of the Uterus
Mara H. Rendi, M.D., Ph.D.

Session 8

Practical Placental Pathology
Mara H. Rendi, M.D., Ph.D.

Session 9

Problematic In Situ Lesions of the Breast
Stuart J. Schnitt, M.D.

Spindle Cell and Vascular Lesions of the Breast
Stuart J. Schnitt, M.D.

Session 10

The Continuing Dilemma of Ductal Carcinoma in Situ
Stuart J. Schnitt, M.D.

Molecular Testing & ER/PR, HER2 Guidelines in the Management of Patients with Breast Cancer
Stuart J. Schnitt, M.D.
