

2021 A Practical Approach to Surgical Pathology: Volume VII

Diagnostic Pearls for the Practicing Pathologist

Release Date: August 15, 2021 | 16.25 AMA PRA Category 1 Credit(s)TM

About This CME Teaching Activity

This CME activity is designed to provide a practical and comprehensive review of key topics in surgical pathology including soft tissue, gastrointestinal, hepatobiliary, breast, head and neck, and genitourinary pathology. Included in this activity is an extensive overview of important diagnostic features that allow for accurate diagnosis as well as key clues on how to avoid the most common diagnostic pitfalls. Faculty discuss appropriate diagnostic immunohistochemical and molecular tests which help to serve as diagnostic adjuncts.

Target Audience

This CME activity is primarily designed to educate practicing pathologists.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 16.25 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

**AMA PRA Category 1 Credit(s)TM
for this activity may be claimed until August 14, 2024.**

This program is planned and organized by Educational Symposia, a leader in accredited continuing education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- Discuss the most common benign and malignant well-differentiated lipomatous tumors.
- Describe the most useful immunohistochemical and molecular genetic tests in distinguishing the most common soft tissue tumor.
- Develop a more confident diagnostic approach for common and important diagnostic challenges in prostate pathology.
- Recognize the spectrum of new and emerging entities in kidney pathology and their diagnostic features.
- Improve the recognition of important staging, classification, grading, and reporting issues in urothelial carcinoma and variants.
- Discuss the practical points of signing out neoadjuvant breast specimens to provide clinicians and patients with key information.
- Accurately classify breast papillary lesions from benign to malignant.
- Guide radiologists and clinicians in the next steps of screening and therapy based upon the high-risk lesions found on core biopsies of the breast.
- Create useful reports to help guide treatment of patients with colitis.
- Discuss the various causes of gastrointestinal eosinophilia and potential pitfalls.
- Provide current state of knowledge on the various histologic and molecular features of colorectal carcinoma that help guide patient management.
- Discuss the most common benign and malignant biphasic salivary gland neoplasms and to focus on their distinguishing morphologic features.
- Examine the morphologic spectrum of papillary thyroid carcinoma and the challenges associated with variant classification.
- Explore the differential diagnosis and pitfalls of common oral pathology lesions.

No special educational preparation is required for this CME activity.

Faculty

John R. Goldblum, M.D.

Chairman, Department of Pathology,
Cleveland Clinic
Professor of Pathology, Cleveland Clinic Lerner
College of Medicine
Cleveland, OH

John Hart, M.D.

Professor
Sections of Surgical Pathology & Hepatology
University of Chicago Medical Center
Chicago, IL

Rish K. Pai, M.D., Ph.D.

Consultant in Gastrointestinal and Hepatic Pathology
Professor of Laboratory Medicine and Pathology
Mayo Clinic
Scottsdale, AZ

Mara H. Rendi, M.D., Ph.D.

Associate Professor
University of Washington
Seattle, WA
Pathologist
Hospital Pathology Associates
Minneapolis, MN

Akeesha Alia Shah, M.D.

Staff Pathologist
Head and Neck Pathology and Cytopathology
Subspecialties
Department of Pathology and Laboratory Medicine
Cleveland Clinic Foundation
Cleveland, OH

Kiril Trpkov, M.D., FRCPC

Professor of Pathology
Genitourinary Pathology Group Leader
Department of Pathology and Laboratory Medicine
University of Calgary and Alberta Precision Labs
Calgary, AB
CANADA

Program

SESSION 1

The Trouble with Fat:
Common Issues with Well-Differentiated Fatty Tumors
John R. Goldblum, M.D.

Pitfalls in Diagnosis of Pleomorphic Adenoma and
Other Biphasic Salivary Gland Neoplasms
Akeesha Alia Shah, M.D.

SESSION 2

Biopsy Diagnosis of Inflammatory Diseases of the Colon
Rish K. Pai, M.D., Ph.D.

Liver Frozen Sections: What to Say and What Not to Say
John Hart, M.D.

Question and Answer Session

John R. Goldblum, M.D.
Rish K. Pai, M.D., Ph.D.
John Hart, M.D.

SESSION 3

Evaluation of the Neoadjuvant Breast Specimen
Mara H. Rendi, M.D., Ph.D.

False Positive, False Negative and Atypical: (Uncertain) Diagnoses in
Prostate Pathology - Important Traps to Avoid
Kiril Trpkov, M.D., FRCPC

SESSION 4

Nuclear Features of Papillary Thyroid Carcinoma Revisited
Akeesha Alia Shah, M.D.

An Approach to Gastrointestinal Eosinophilia
Rish K. Pai, M.D., Ph.D.

SESSION 5

Drug-Induced Liver Disease: A Pattern Based Approach
John Hart, M.D.

Common Morphologic Patterns in Soft Tissue Tumors: Part 1
John R. Goldblum, M.D.

SESSION 6

Common Morphologic Patterns in Soft Tissue Tumors: Part 2
John R. Goldblum, M.D.

Papillary Lesions of the Breast
Mara H. Rendi, M.D., Ph.D.

New Developments in Kidney Carcinoma: What's Important and Why
Kiril Trpkov, M.D., FRCPC

SESSION 7

An Update on Colorectal Carcinoma Reporting
Rish K. Pai, M.D., Ph.D.

Oral Pathology for the General Surgical Pathologist
Akeesha Alia Shah, M.D.

SESSION 8

Urothelial Carcinoma: Common Diagnostic Challenges and
Variants Not to Be Missed in Practice
Kiril Trpkov, M.D., FRCPC

Liver Tumor Diagnosis in 2021
John Hart, M.D.

High-Risk Breast Lesions on Core Biopsy
Mara H. Rendi, M.D., Ph.D.
